

BATTLEFIELD (modified by N. Desent)  
(Original Arrangement by Sonya Isaacs and Vince Gill)

One day as I was thinking  
On unseen things above  
The Savior spoke unto me  
And filled my heart with love

(Chorus)

I want to die on the battlefield  
I want to die in this war  
I want to preach the gospel  
With my King James sword

I used to know some people  
Who walked and talked with me  
But since I turned to Jesus  
They've turned their backs on me

(Chorus)

I want to die on the battlefield  
I want to die in this war  
I want to preach the gospel  
With my King James sword

Some say give me silver  
And some give me gold  
But I say give me Jesus  
Who saved my wretched soul

(Chorus)

I want to die on the battlefield  
I want to die in this war  
I want to live for Jesus  
With my King James sword

Well many a good man has fallen  
And many a battle's been won  
And God still gives the victory  
For the glory of his dear Son

So as we live for Jesus  
And as we preach the word  
Let's look for our Savior's coming  
When he'll be taking us home

But if my life before then  
Ends in early sleep  
I want to keep on fighting  
His word I'll strive to keep

I want to die on the battlefield  
I want to die in this war  
I want to die on the battlefield  
With glory in my soul

With glory in my soul
