CLASE 000D PIRÁMIDE DE ENSEÑANZA

Introduccion

The Baptist International Teaching Pyramid has been used for nearly four decades to illustrate the curricula levels used in the school (university), and also the lower levels in the Gospel work.

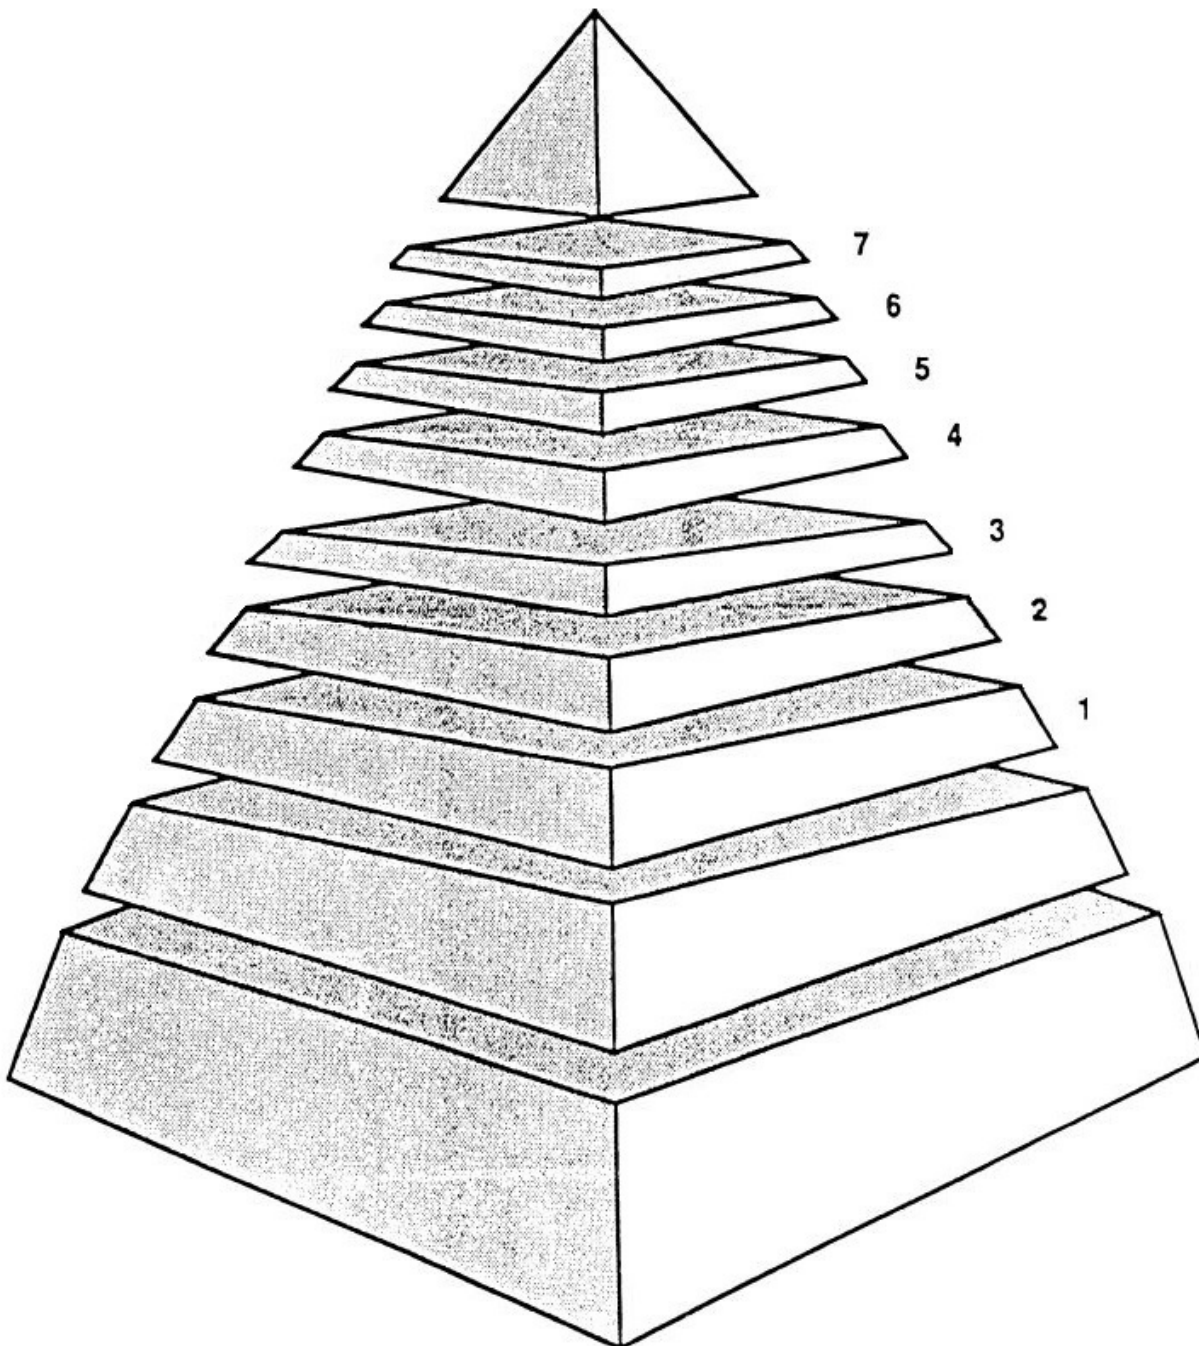

Each level (segment of the pyramid) illustrates a number of things:

1. The spiritual understanding of the individual based on obedience to Jesus' commandments. Psalm 111:10 shown us that understanding increases proportionally with learning and doing Jesus' commandment. We learn by doing. We understand by doing.
2. The expectation of how closely the individual is conformed to the image of Jesus Christ. The Judgment Seat of Christ will reveal all things, but we have fruit now that we can bear to show the kind of tree we truly are. A tree is known by its fruit.
3. The number or population of persons in each level relative to the other levels. The uppermost point of the pyramid represents Jesus Christ, as there is only one and there is no higher level. The lower level, in contrast, has the majority of people, and they have the least spiritual understanding (lost).
4. Each level (segment) has corresponding teaching designed for that level to bring the student along to the next level. Each level reinforces teaching at lower levels. By identifying at what level a student is, the correct instruction can be determined. Furthermore, it is understood that each student knows the lower levels of teaching so he can also identify levels of students and teach accordingly.
5. The way to progress upward is to be more and more knowledgeable of Christ's commandments, be obedient to them, and teach them to others.
